Dear Parents,

Burrton schools received a grant in order to purchase five Bee-Bots this year. A Bee-Bot is a programmable floor robot and can be used as a starting point for teaching control, directional language and programming to young children.

A few area schools also received this grant. To full fill part of the grant, all schools that were selected recipients are collecting lesson plans and pictures to put together a book for others to see how the Bee-Bots can be used in an educational setting. The books will be sold on Lulu.com in the spring. I would like your permission to use your student's picture on the internet or possibly within the book. Please sign and return this letter, so that the district can comply with your wishes. Please note that student names will not be used on the internet or within the book.

☐

YES, it is okay to use my student's picture on the internet or the Bee-Bot book.
(Student names will NOT be used.)

☐

NO, I would rather the school did NOT use my student's picture in the Bee-Bot book or on the internet.

Name of your student

Grade level of your student
